Introduction

I have been a software developer and systems architect for 10+ years with deep theoretical and practical knowledge. My ambition is to deliver solutions of high quality and architecture. I like to keep myself updated of any developments in the industry and the latest tech but I have a strong belief in using the right tool for the right job. I am a great fit for a position as team leader, solutions architect or a senior developer.

Experience

- September 2018 – Now **Lead Developer / Team leader**, Bredband2, Malmö, Sweden.
I am responsible for all systems engineering, architecture and design. I am the lead developer of a 20 man team. My responsibilities also include the training and mentoring of junior developers.
- December 2008 – **Software developer**, Bredband2, Malmö, Sweden.
Full stack development of systems for the management of customer relations, invoicing, e-commerce, customer portals and so on. I was responsible for server management, code architecture and deployment. Most of the systems were developed in PHP/MySQL but they were gradually replaced by a Ruby/PostgreSQL stack
- September 2018 – **Junior consultant**, Academic Work, Malmö, Sweden.
Part time job while studying. Me and another junior consultant were taken under the wing of a senior consultant where we developed a CRM system. The project was a complete success and led to a position as software developer.

Education

- 2001–2008 **Lund University, Lund, Sweden, Master, Computer Science.**
- Practical AI / Machine learning
 - Database design
 - Real time programming
 - Algorithm design
 - Web programming
 - Discrete mathematics

Kunskaper

- Languages Ruby, Javascript, PHP, SQL, Elixir, Python
- Backend Ruby on Rails, Node.js, Express, Laravel, Phoenix, Flask
- Frontend React, React Native, Vue, Backbone, Ember, HTML, CSS, SASS, LESS, PostCSS
- Techniques TDD, BDD, Agile/Scrum
- Misc PostgreSQL, Devops, MySQL, MongoDB, Redis, Elasticsearch, AWS, Docker, Heroku, Qlik Sense

Language

- Swedish **Native speaker**
- English **Professional**
